

Next Steps . . . Implementing the Common Core State Standards *Classroom Practices!*

INTENDED AUDIENCE: For teachers, administrators and curriculum directors who have already explored the standards and are looking to “dig deeper” into the *Common Core and their Impact on Classroom Practices*. Materials and resources will be provided with the intent of sharing them with colleagues.

As we begin our migration from the GLCEs and HSCEs to the Common Core, the Great Lakes Bay Instructional team will address strategies for engaging students in reading & writing, and model classroom practices that will impact learning. Let's begin our migration now!

Key questions to be addressed:

How will the Common Core impact classroom practices? What should the Common Core look like? What should the Common Core sound like?

Participants will engage in interactive activities designed to be replicated in the classroom the very next day.
